

Affordable Mexican-Friendly Weekly Weight-Loss Menu

Simple meals, inexpensive ingredients, and realistic portions using foods easy to find in Mexico at Walmart, Sam's Club, Costco, tianguis, or a regular corner grocery.

Purpose of this plan

This 7-day menu is designed for weight loss while keeping meals practical: chicken breast, eggs, tuna in water, oats, Greek or natural yogurt, corn tortillas, beans, rice, frozen vegetables, jitomate, cucumber, jicama, apples, bananas, calabacita, lettuce or spinach, lime, garlic, salsa, and basic seasonings. No tofu, no specialty-store treasure hunts, no ingredients that require a map and a wizard.

Calorie target: about 1,650 to 1,900 kcal per day, depending on exact brands and portions. Because you are 1.93 m and 170 kg, avoid extreme crash dieting unless supervised by a healthcare professional. This plan keeps calories low but still includes protein, vegetables, fiber, and enough structure to be repeatable.

Simple portion rules

Part of the plate	Practical portion	Examples
Protein	150-200 g cooked chicken breast OR 1 can tuna OR 2 eggs + beans	Chicken, tuna in water, eggs, Greek yogurt, beans
Vegetables	2 packed cups per main meal when possible	Calabacita, frozen California mix, lettuce, spinach, cucumber, jitomate, onion
Starch	Pick one small serving per meal	2 tortillas, 1/2 cup cooked rice, 1/2 cup beans, 3 baked tostadas, or 1 medium potato
Fat	Keep it small: 1 tsp oil or 1/4 avocado	Use lime, salsa, garlic, pepper, chile, and herbs for flavor instead of extra oil

Easy recipe cards

Garlic-lime chicken

- Season 180 g chicken breast with garlic, lime juice, black pepper, chile powder, and a pinch of salt.
- Cook in a nonstick pan with 1 tsp oil or cooking spray.
- Add calabacita, onion, and jitomate. Cook until vegetables soften.
- Serve with 1/2 cup cooked rice or 2 corn tortillas.

Tuna tostadas with yogurt-lime sauce

- Drain 1 can tuna in water.
- Mix with lime, black pepper, chopped onion or cucumber, and 2 tbsp plain Greek yogurt.
- Serve on 3 baked tostadas with lettuce and salsa or pico de gallo.

Chicken in red salsa

- Blend or finely chop jitomate, onion, garlic, and optional chipotle.
- Cook chicken breast pieces in a nonstick pan.
- Pour in salsa and simmer until thick.
- Serve with vegetables and 2 tortillas.

Tuna stuffed potato

- Bake or microwave 1 medium potato until soft.
- Open it and fill with tuna, pico de gallo, lime, and 2 tbsp yogurt.
- Add a big side salad to keep the plate filling.

Quick chicken vegetable soup

- Boil water with onion, garlic, pepper, and a little salt.
- Add chicken breast and frozen vegetables.
- Add 1 small potato if you want it more filling.
- Finish with lime and salsa.

Light creamy garlic chicken

- Cook 170 g chicken with garlic and pepper.
- Turn heat low and stir in 3 tbsp plain Greek yogurt. Do not boil hard or the sauce can split.
- Serve with frozen vegetables and 1/2 cup rice.

Shopping list for one person

Category	Buy
Proteins	2 kg chicken breast; 30 eggs; 1 multipack tuna in water; 1 large tub plain or low-fat Greek yogurt.
Carbs and staples	1 kg oats; 900 g brown rice; 1 kg corn tortillas; 1 pack baked tostadas; dry or canned beans.
Vegetables	Frozen vegetables, jitomate, onion, calabacita, cucumber, jicama, lettuce or spinach, garlic, limes.
Fruit	Apples and bananas.
Flavor	Salsa, chile powder, black pepper, cinnamon, chipotle, vinegar, and a small bottle of olive oil or cooking spray.

Meal prep notes

- Cook 1.5 to 2 kg chicken in two flavors: half garlic-lime and half red salsa. Store in containers for 3 to 4 days or freeze part of it.
- Boil 6 to 8 eggs at once for quick snacks or emergency dinners.
- Wash and chop cucumber, jicama, lettuce, and onion so snacks and salads are frictionless.
- Cook a pot of beans or use pouch/canned beans when time is short. Portion into 1/2 cup servings.
- Cook rice ahead and portion into 1/2 cup servings. This prevents the “just one more spoonful” rice avalanche.
- Keep tuna, tostadas, salsa, and yogurt available for a 5-minute emergency meal.

How to adjust calories

Situation	Adjustment
Too hungry	Add one fruit, 1/2 cup beans, extra vegetables, or one extra tortilla. Do not remove protein first.
Not losing weight after 2-3 weeks	Reduce starch slightly: remove 1 tortilla, 1 tostada, or 1/4 cup rice from one meal.
Feeling low energy	Add 1/2 cup beans or one fruit earlier in the day and drink enough water.
Craving something creamy	Use plain Greek yogurt with lime, garlic, pepper, and salsa instead of mayo or crema.

Important note

This is a general nutrition plan, not medical care. Because your BMI is in a high-risk range, involve a doctor or registered dietitian if possible, especially before trying very-low-calorie diets or if you have blood pressure, diabetes, sleep apnea, kidney, gallbladder, or medication concerns.

Source basis: general healthy plate principles, lean protein, high-volume vegetables, and common Mexican supermarket availability from the prior research report. Prices and availability can change.
